

ENHANCED SIMULATOR TRAINING

Take Real-Life Learning to the Next Level

Give your operators the tools to use simulation software more effectively, improve critical thinking skills and make better decisions on the job with our Enhanced Simulator Training guides and exercises.

While your simulation software comes with a basic operating manual and some tutorials, it may not ensure the most effective knowledge transfer in advance of operating the simulator. TDS offers enhanced instruction that gives operators a comprehensive learning experience.

MODELING A BETTER INVESTMENT

TDS helps maximize the use of and return on investment on simulation software by providing challenging and critical learning activities that will boost operator performance and effectiveness.

Our Enhanced Simulator Training tools offer additional features that work with your simulator software to provide:

- Detailed lesson plans that integrate with existing instruction
- Knowledge and performance objectives to develop a solid foundation
- Exams given prior to simulator operation
- Real-life scenarios in addition to failure scenarios
- Higher level exams to promote and evaluate critical thinking

WHY TDS IS DIFFERENT

Expertise

We offer clients a team of performance specialists with industry, technical, human performance and adult learning expertise. This depth of experience allows us to provide a third-party perspective.

Flexibility

Our responsiveness and resources allow us to quickly adapt and tailor every service to our clients' specific needs.

Comprehensive

We are a full-service provider that offers solutions for every level of your organization, from new hires to seasoned managers.

Innovation

From classroom instruction to simulator training, our blended learning methods incorporate the latest technology and industry standards.

WHY IT WORKS

- TDS combines the most current instructional design methodologies with extensive experience in petrochemical and refining operations to create these advanced simulator guides and simulation exercises.
- Over 90% of our technical staff has hands-on operational, engineering and/or maintenance experience in the industry.

Contact TDS today or visit us at TDSHOU.com to learn more about how we can provide custom guides and exercises for both industrial and educational settings.
